

## SmartMedia Interactive Kiosk KIO Series - single-sided

Available with  
Android Player and/or  
an integrated PC

43", 49", 55", 65"

Kio Indoor Series and  
Kio Indoor AT Series (with integrated Android)

Interactive and ideal for  
Digital Signage applications

**SmartMedia KIO** is an innovative interactive kiosk designed to attract and capture the attention of any user.

Equipped with multi-touch technology, the 4 or 6 touch display responds in an intuitive way to all the new Digital Signage applications and all developed solutions to enhance information management.

Made with an elegant structure and attractive design in black and silver it adapts to every environment and public space.

Connected to the network for Digital Signage Application remote control.

### APPLICATIONS

SmartMedia KIO allows interaction with multimedia content, maps, information, advertising posters, and much more.

Users can interact with the surface in an intuitive manner with their fingers. Intended for retail outlets, government agencies, reception areas, hotel lobbies, school entrances, banks, corporations, museums, airports, shopping malls and more.

### FEATURES

- Available in two versions
  - with integrated Android Player
  - with integrated i5 PC
- Ability to connect a PC via HDMI in the Android version
- Can be connected to the network for digital signage application remote control
- Safety glass protects the Display and makes it safe for public use
- Latest touch technology for accurate and reliable response
- Built-in ventilation system to keep the components at optimal temperature
- Optional wheels for easy movement

## Included SmartTouch Software

[Not provided on models with Android]

**SmartTouch is the software that lets you manage multimedia content and presentation files more effectively and in a more visually engaging way on any touch-based device.** Easy to use, SmartTouch allows you to control and interact with content naturally thanks to hand gesture recognition. SmartTouch has been designed to give you an experience much like your smartphone or tablet. Designed for use with touch screen monitors and with interactive kiosks and tables.

Great at info points, trade shows, museums, retail locations, shopping malls, television news studios, meeting rooms, airports, hotels, universities, schools, training centers, libraries, etc.

### PHOTO, VIDEO AND AUDIO VIEWER:

Allows you to visualize and manipulate photographs, videos and audio files, annotate directly over the screen, and capture and email your annotations.

### JIGSAW PUZZLE:

This app simulates a classic jigsaw puzzle to entertain in a fun way! Users can turn any image they desire into a puzzle.

### PDF AND MICROSOFT WORD, EXCEL AND POWER POINT FILE VIEWER:

Lets you visualize the selected file and zoom in or out on all or part of the document, annotate directly over the screen, and capture and email your annotations.

### BROWSER:

The integrated web browser will let you navigate the Internet and create white and black lists to limit access only to specified sites, annotate directly over the screen, and capture and email your annotations.

### QUIZ BUILDER:

Create and manage custom quizzes for educational or entertainment purposes.

### FORM:

Lets you visualize the selected file and zoom in or out on all or part of the document, annotate directly over the screen, and capture and email your annotations.

Compatibility

Minimum requirements: 7-inch Tablet with Windows 8.1 or Windows 10 or Desktop PC with Windows 7, 8, 8.1 or 10
